Our Experience

Our Experience 22

The Beginning of Our Journey

Founding History:
The journey of PT Cinwa Zafa Indonesia is inseparable from the extensive experience and dedication of its founder, Mr. Adi Junadi, in the cable support system industry.

Mr. Adi Junadi completed his education in Palembang in 1990, after which he moved to Jakarta to launch his career with a company specializing in cable support systems, steel conduits, accessories, and grounding systems.
Through this experience, he gained strong technical expertise and deep insight into the needs of the electrical industry.
Leveraging the experience he acquired between 1991 and 2005, he subsequently founded CV Hendry Cipta Karya, marking the first step in establishing a business focused on cable support and conduit systems. The company has since grown, supported by production facilities in Salembaran Jaya, Tangerang City, and a team of experienced professionals.

Growth

Over time, the trust placed in the company by various electrical contractors drove product development—particularly in the supply of cable support system materials such as cable trays, cable ladders, and their accessories, including heavy-duty, stainless steel, and aluminum products designed to meet the requirements of high-specification projects. In tandem with business growth and increasing specialization, business operations were separated to enhance service quality and professionalism.
It is against this backdrop that PT Cinwa Zafa Indonesia emerged as an entity specializing in -

Cable Support Systems—specifically cable trays and cable ladders.
Leveraging its established experience, expertise, dedication, and proven project track record,
PT Cinwa Zafa Indonesia is committed to being a trusted partner in delivering high-quality, precision-engineered Cable Support System solutions tailored to industry needs.

Awal Perjalanan Kami

Sejarah Pendirian :
Perjalanan PT Cinwa Zafa Indonesia tidak terlepas dari pengalaman panjang dan dedikasi pendirinya. Bapak Adi Junadi, di industri Cable Support System.

Bapak Adi Junadi menyelesaikan pendidikan di Palembang Pada tahun 1990, setelah , beliau merantau ke Jakarta dan memulai karier di perusahaan yang bergerak di bidang Cable Support System, steel conduit, aksesoris, serta grounding system.

Dari pengalaman tersebut, beliau memperoleh pemahaman teknis yang kuat serta wawasan mendalam terhadap kebutuhan industri elektrikal.

Berbekal pengalaman yang diperoleh selama periode 1991 hingga 2005, beliau kemudian mendirikan CV Hendry Cipta Karya sebagai langkah awal dalam membangun usaha di bidang Cable Support System dan conduit system. Perusahaan ini berkembang dengan dukungan fasilitas produksi di Salembaran Jaya, Kota Tangerang, serta tenaga kerja profesional yang berpengalaman.

Pertumbuhan

Seiring berjalannya waktu, kepercayaan dari berbagai kontraktor elektrikal mendorong pengembangan produk, khususnya dalam penyediaan material Cable Support System seperti cable tray, cable ladder, serta aksesoris pendukungnya, termasuk pengembangan produk heavy duty, stainless steel, dan aluminium untuk memenuhi kebutuhan proyek dengan spesifikasi tinggi. Sejalan dengan pertumbuhan usaha dan peningkatan spesialisasi, dilakukan pemisahan fokus bisnis guna meningkatkan kualitas dan profesionalitas layanan.

Dari sinilah PT Cinwa Zafa Indonesia hadir sebagai entitas yang lebih fokus dan spesialis dalam bidang Cable Support System, khususnya pada produk cable tray dan cable ladder.

Dengan membawa pengalaman, keahlian, dedikasi serta rekam jejak proyek yang telah terbentuk sebelumnya,

PT Cinwa Zafa Indonesia berkomitmen untuk menjadi mitra terpercaya dalam menyediakan solusi Cable Support System yang berkualitas, presisi, dan sesuai dengan kebutuhan industri.

Company Overview

ENGLISH

PT CINWA ZAFA INDONESIA is an expansion of CV Hendry Cipta Karya, a company with extensive experience in delivering various Cable Support System projects. As the business evolved, its operations were strategically divided, with CV Hendry Cipta Karya focusing on conduit products, while **:**

PT CINWA ZAFA INDONESIA specializes in the manufacturing and supply of Cable Trays, Cable Ladders, Ducts/Trunking, and related Accessories.

As a result, the project experience, technical expertise, and operational capabilities developed over the years continue to serve as the foundation of PT CINWA ZAFA INDONESIA's operations. Supported by an experienced workforce, we are committed to delivering consistent product quality, on-time delivery, and excellent customer service.

With a strong focus on Cable Trays, Cable Ladders, Ducts/Trunking, and related Accessories, PT CINWA ZAFA INDONESIA continues to strengthen its position as a specialized, professional, and trusted Cable Support System manufacturer in Indonesia.

BAHASA INDONESIA

PT CINWA ZAFA INDONESIA merupakan pengembangan dari CV Hendry Cipta Karya yang telah berpengalaman dalam berbagai proyek Cable Support System. Seiring dengan perkembangan usaha, dilakukan pemisahan fokus bisnis, di mana CV Hendry Cipta Karya berfokus pada produk conduit, sedangkan **:**

PT CINWA ZAFA INDONESIA secara khusus menangani Cable Tray, Cable Ladder, dan Duct/Trunking, serta Aksesoris lainnya.

Dengan demikian, pengalaman proyek, pemahaman teknis, serta kemampuan operasional yang telah terbentuk sebelumnya tetap menjadi bagian yang berkelanjutan dalam operasional PT Cinwa Zafa Indonesia saat ini. Didukung oleh tenaga kerja berpengalaman, kami berkomitmen memberikan kualitas yang konsisten, pengiriman tepat waktu, dan pelayanan terbaik bagi setiap pelanggan.

Dengan fokus pada Cable Tray, Cable Ladder, dan Duct/Trunking, serta Aksesoris lainnya. PT CINWA ZAFA INDONESIA terus memperkuat posisinya sebagai perusahaan yang spesialis, profesional, dan terpercaya dalam industri Cable Support System di Indonesia.

Our Mission

"Customer satisfaction as a priority."

Our Vission

01

Quality and Consistency

Providing high-quality and consistent cable support system products (cable trays, cable ladders, ducts/trunking, and accessories).

02

Accuracy

Ensure timely production and delivery processes in accordance with project requirements.

03

Finishing

Providing a range of materials and finishes in accordance with project specifications (Hot-Dip Galvanized, Electroplating, Powder Coating, Aluminum, and Stainless Steel).

04

Best Value Pricing

Providing competitive prices and professional service to achieve customer satisfaction.

why choose us ?

Specialist in Cable Support Systems
PT Cinwa Zafa Indonesia focuses on cable trays, cable ladders, ducts/trunking, and their accessories, enabling the delivery of solutions that are accurate, precise, and tailored to project requirements.

Backed by Proven Experience
Supported by extensive industry experience, the company possesses a strong understanding of technical requirements and the challenges of fieldwork.

Guaranteed Product Quality
Each product is manufactured through a controlled process to ensure consistent, robust, and reliable quality for a wide range of project requirements.

Comprehensive Range of Materials & Finishes
A variety of finishes are available—such as hot-dip galvanizing, electroplating, powder coating, aluminum, and stainless steel—that can be tailored to specific project requirements and conditions.

Fast and Punctual Delivery
We are committed to ensuring that every order is delivered on schedule, thereby supporting the smooth execution of the project.

Competitive Pricing
Offering competitive prices while maintaining quality, thereby delivering the best value to customers.

Customized Project Solutions
We are ready to tailor products to project specifications and requirements, while delivering efficient and effective solutions.

A Professional and Trusted Partner
Committed to quality and service, PT Cinwa Zafa Indonesia stands as a reliable partner in the supply of cable support systems.

Free Delivery Available Across JABODETABEK Area

We provide free delivery within the JABODETABEK area to support a more efficient and cost-effective procurement process. Products are delivered safely and on time to help ensure smooth project execution.

In-House Delivery Fleet

JABODETABEK Coverage

On-Time Delivery

Cable Tray
Support Systems

Perforated Cable Tray is designed to provide reliable cable protection with enhanced ventilation. The perforated design promotes heat dissipation, reduces heat accumulation, and allows easy inspection and maintenance. This results in improved cable system reliability and extended service life.

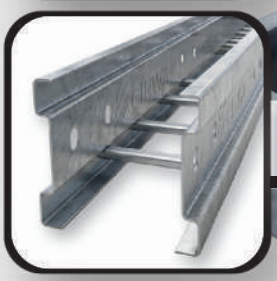
Type C

Type U

Cable Ladder Support Systems

Cable Ladder is designed for heavy-duty cable support in demanding environments such as industrial facilities, basements, and oil & gas installations. Constructed from durable materials, it offers excellent strength, reliable load-bearing capacity, and long-lasting performance.

Type U



Type W

Type HD

Type HDC

Cable Duct Support Systems

Cable Duct features a fully enclosed design that provides enhanced protection for cables in underfloor and concrete-embedded installations. Its solid construction helps protect cables from physical damage, dust, moisture, and corrosion, ensuring long-lasting reliability and performance.

Type U

Cable Wiremesh Support Systems

Cable Wire Mesh (Cable Cage) offers an economical and flexible cable management solution. Its open structure allows easy inspection, maintenance, and cable routing adjustments while promoting excellent airflow. The design reduces installation time and minimizes the need for prefabrication, making it ideal for dynamic cable installations.

Accecories
Support Systems

Accessories are supporting components designed to connect, support, protect, and adapt cable routing systems. The proper use of accessories ensures that cable tray installations are secure, robust, and flexible, while maintaining optimal cable management performance and long-term system reliability.

Finishing Options

Available finishing options include Hot Dip Galvanized (HDG), Electro Galvanized (EG), and Powder Coating, each designed to enhance corrosion resistance and extend the service life of the product.

Note: Aluminium and Stainless Steel products are supplied in their natural material form (raw material) without additional surface finishing, as their corrosion resistance is inherently provided by the material itself.

Hot Dip Galvanized: Durable Corrosion Protection

Electroplating: Zinc or nickel plating

Powder Coating: Resilient matte finish

Aluminium: Brow clear anodized finish

Stainless Steel: Polished satin stainless stell
